Don't bin them, recycle your old electricals

This festive season, don't ditch your old gadgets! If they can't be fixed, sold or donated, remember to **always** recycle them.

Simply bag up your old, unwanted fairy lights, cables, vapes, earbuds and other small electricals. Don't forget to remove any loose batteries first, my furless friends!

Then just scan or search '**recycle your electricals**' to find all your local donation or recycling points.
